

M.VIJAY AKASH

Software developer | FullStack AI Engineer

- ◇  - 8248724588 ◇  - vijayakashm08@gmail.com ◇  - <https://www.linkedin.com/in/vijay-akash-978069295/>
◇  - <https://github.com/Vijayakash-588> ◇  - <https://portfoliovi.netlify.app>

OBJECTIVE:

Aspiring **Software Engineer and AI engineer** with experience in **fullstack development and AI systems**, skilled in Java and MERN Stack, and automation concepts and **Cloud technologies** with exposure to **CI/CD pipelines**, API testing, and scalable application development. Passionate about ensuring software quality through automation, efficient leading strategies, and an **Agile Environment**. Adapt at Collaborate, Articulating ideas clearly, and taking **accountability** for delivering **reliability** through Innovation and Innovative Technology.

EDUCATION:

- **B.E - Computer Science and Engineering with Honours in Data Science** (2022-2026 COMPLETED)
Nadar Saraswathi College of Engineering and Technology, Theni dt **CGPA- 8.63 (with no backlogs)**
- **HSC (2020-2022) : 90%**
- **SSC (2019-2020) : 92%**

SKILLS:

- **Programming Languages:** Java, Python, SQL, C Programming, C++ Programming, Javascript.
- **Software development:** Data structures, Algorithms, object oriented programming(OOP), Problem solving, complexity analysis.
- **Databases:** Mongo DB, MySQL, Firebase, PostgreSQL, Kubernetes, Docker.
- **Framework and tools:** Rest APIs, Git, CI/CD pipelines, Postman, Cloud, Blockchain(Ethereum), Linux.
- **Fullstack:** MERN stack, MEAN stack, Microservices, distributed systems, System design basics, Rest API, AWS Cloud.
- **AI/Machine Learning:** PyTorch, TensorFlow, Computer Vision, LLM Integration(**Hugging Face**), RAG.

PROJECTS:

ERP-PROAccounting website with AI - [https://github.com/Vijayakash-588/Tally_E_commerce-main]

- Built a **ERP software** of Tally app features using React and Nodejs with postgresQL integrated with **MCP server** integrating Cloud technology.
- Implemented system configuration patterns for consistent environment setup and improved reliability of data workflows.

Shirt TRY-ON Presentation - [https://github.com/Vijayakash-588/Virtual_shirttracking]

- **AI Shirt Try-On System** using Python and OpenCV, Pytorch and Tensorflow for virtual garment visualization, enhancing user experience.
- Used Mathematic modeling concepts, including **Linear Programming** ideas and Nonlinear transformations with **Nonlinear Optimization** to improve **visual accuracy**. Created repeatable containerization workflows to support consistent model inference runs across linux environments.

Appointment scheduler app - [<https://github.com/Vijayakash-588/appointment-scheduler-app>]

- **Production-ready Appointment Scheduler App** using ReactNative and Node.js to streamline staff-principal communication easily.
- Addressed challenge areas in scheduling performance by optimizing data access patterns and improving reliability under concurrent usage.
- Applied configuration best practices to keep environment variables consistent across builds. deployed the backend in **cloud services**.

Health Monitoring Web Application - [<https://github.com/Vijayakash-588/Health-Tracker-using-angular>]

- a Health Monitoring Web App built with Angular, Node.js, and MongoDB for tracking steps, heart rate, and diet.
- Designed with a excellent front end with monitoring health of a person and help them to tract a balance diet.

EXPERIENCE:

- **Fullstack AI Engineer(Software developer) – Techmango** (NOVEMBER 2025 - JUNE 2026)
-As an Fullstack developer at Techmango, developed an websites and apps using MERN stack integrating AI and AWS Cloud.
-Contributed to Computer Engineering initiatives using Innovative Technology, and supported scalable services with Distributed Storage, Fault Tolerance, and Relational Databases.
- **Web Development & Freelancing- Astroweb Solutions** (JUNE 2025 - SEPTEMBER 2025)
-Completed a Web Development at Astroweb Solutions, creating responsive and SEO-friendly websites using HTML, CSS, and JavaScript.
-Worked in a fast-paced Agile Environment and demonstrated Adept execution while Articulating technical updates.

CERTIFICATIONS:

- Python Programming - Infosys Springboard
- Java - Infosys Springboard
- Apex specialist– Salesforce
- AI Tools - Udemy
- AWS cloud – Amazon AWS Builder

ACHIEVEMENTS AND PARTICIPATION:

- **TNskills finalist** for **web development domain** organized by india skills and world skills.
- Finalist in **CODE RED'2024** Hackathon and **SIH participant**.
- **Winner** in Nadar Saraswathi College of Engineering and Technology **Intra College Hackathon**.
- Participated in **Dr.Kalam Awards 2025** organized by World Youth Federation.
